

The Whicker Ticket

The Whicker Ticket desires to shape the preexisting student government so that it works for everyone by prioritizing transparency, accessibility, and excellence. We believe every student deserves their voice to be acknowledged in shaping their university experience. We are committed to facilitating a culture of openness and collaboration between the different entities of the student body. Students should be included in and aware of the allocation of university resources. Our mission is to strengthen connections across campus, ensure resources are available and accessible to all, and build up the University of Utah so that it is stronger for future generations. By putting students first, we aim to create a personal, more united campus community where everyone can thrive in modern-day academia.
